

SAILING WITHOUT BRAKE!

- Near zero sailing drag.
- Powerful thrust in head seas.
- Incredible control in reverse.
- Reduces or eliminates “propwalk” in reverse.
- External, and separate, pitch adjustment for forward AND reverse.
- Massive gearings last for decades of utterly reliable and trouble free service.
- Soft Stop™ M multiDisc Brake prevents impacts when reversing blades.
- 2, 3 and 4 blade models.
- Shortest hub length. Fits smallest apertures.
- Delivery fully assembled, balanced and tested. Ready to install on any shaft with no modifications necessary.

SIMPLY THE FINEST SAILING YACHT PROPELLERS IN THE WORLD.
